

## Severne Race Program 2010

**Dealer Guides:** Nov 1st

**Ordering Deadline:** Nov 15th

**Shipping Date:** Jan 15th

In 2009 there has been intensive development of the Severne racing program. With the feedback from our now formidable race team including Bjoern Dunkerbeck, the new race products will reflect the full year testing and developing the fastest race sails on the planet.

### CODE RED

This sail is undergoing a full redevelopment and is likely to have a new name as well as totally new features.

#### OverDrive

The OverDrive has also received some significant changes, with the bottom end, speed, stability, rotation and ease of use all increased.

### ENIGMA Mast

Our semi custom manufacture masts have been updated with some new features to increase durability, reduce weight, increase reflex speed and continue the accuracy in which they are produced and tested.

(Please see attachment. Details are subject to change without notice)

### ENIGMA Boom

The enigma series - our semi custom manufacture - will be complimented with a formula size boom due to launch in early 2010. Steve Allen, our newest member of the race team is putting this boom through its paces to ensure it meets with the formula world champion's needs.

Full details will be available within the Dealer Guide available from Nov. 1st.
